Convention.  
**IRELAND SHOWS NO EXCITEMENT**  
Very Few People See Arrival of the Delegates.  
Absence of Interest may be a Healthy Sign.

**Horace Plunkett Pleads Political Sides.**  
[BY ATLANTIC CABLE AND A. P.]  
DUBLIN, July 26.—Even fewer people assembled on College Green this morning to witness the arrival of the delegates to the Irish convention than were present yesterday. The complete absence of public excitement is treated by the Dublin press on the whole as a healthy sign. The unanimous selection of Horace Plunkett to be chairman of the convention is welcomed by the newspapers of the various political parties.

**PREPARE PROPOSALS.**  
At today's session of the convention the official report announced that the preliminary committee had been appointed to prepare proposals for submission to the delegates. It was agreed that the proposals should be submitted by August 2 to the chairman, in connection with the secretary's report, to be considered by the members in a special session of the convention to be held on August 3.

**FEARED SINN FEINERS.**  
[BY ATLANTIC CABLE AND A. P.]  
LONDON, July 25.—According to a lobby correspondent of the newspapers the precaution in having secret service men placed in the Parliament building was to prevent a contemplated demonstration by Sinn Feiners.

**FORE CAVALRYMEN.**  
COMING TO MIAMI  
[BY A. P. NIGHT WIRE.]  
MIAMI (Ark.) July 26.—The United States cavalry are expected here tonight, to aid in the suppression of the strike. The officers commanding the force are expected to arrive here tonight. The cavalry are expected to arrive here tonight.

**DEPENDENTS.**  
The dependents of the soldiers who are to be sent to the front are expected to arrive here tonight. The dependents are expected to arrive here tonight.

**WATERS AND HARBORS.**  
BILL PASSES SENATE.  
Fierce Attacks on Measure as Inexcusable in War Time. There are But Eleven Votes Against it on Roll Call.—Will Now Go to a Conference to Determine its Fate.

**THE WEATHER ELSEWHERE.**  
Torrid Temperatures are General Throughout Middle West.  
[BY DIRECT WIRE.—EXCLUSIVE DISPATCH.]  
CHICAGO, July 26.—Chicago's temperature rose to 86 deg. today, punctuated by sudden showers and close atmosphere that made it appear much hotter. Temperature was lower only three degrees tonight, indicating a scorching tomorrow unless the wind shifts. Detroit reported 90 deg. and Green Bay, touted as a famous summer resort, showed 92 deg., two degrees hotter than New Orleans. Eastern States also were warmer. Idaho and Montana led the hot procession with 104 deg., and Western Canada reported 95 deg.

**Shows Senate Duty in War.**  
Borah Declares Hour is Here for Supreme Sacrifice.  
Declares Russian Collapse is Terrific Disaster.  
No Time to Haggle Over the Rivers and Harbors.

**AMERICAN FLAGS COST TOO MUCH.**  
LEGISLATION URGED TO PROTECT THE PUBLIC.  
Unreasonable Prices of Dealers Found by Federal Trade Commission's Investigation to Be Due to Trust Tactics of an Association of Makers.

**EXPECT GOETHALS TO GO TO FRANCE.**  
[BY A. P. DAY WIRE.]  
WASHINGTON, July 26.—Legislation to protect the public against unreasonable prices for American flags was urged in a report to the Senate today by the Federal Trade Commission, which has investigated charges of "outrageous" prices by dealers made at the time the United States entered the war.

**NEW YORK ALMOST FILLS ARMY QUOTA.**  
[BY A. P. NIGHT WIRE.]  
WASHINGTON, July 26.—Regular army recruiting brought in 2370 men yesterday. New York with 237 men secured during the day, needs only thirty-one to fill its quota of 18,274 and several other States are nearing completion of their appointments. A total of 161,377 have been enrolled since April 1, leaving the army only about 22,000 short of its full war strength.

**Pacifist Resolution.**  
(Continued from First Page.)  
Dr. Michaelis, and said that they were all agreed that peace awaited the restoration of Belgium and France, without any economic or other condition. He also doubted that there would be peace until all the governments clearly and expressly repudiated the idea of annexation. It was the duty of the House of Commons to reply to the Reichstag resolution. Dr. Michaelis' speech was made on that resolution and the fact that he did not speak against that or try to dissuade the Reichstag from passing that ought not to be overlooked. Former Premier Asquith thought the previous speakers attached more importance to the Reichstag's resolution than it really deserved.

**IDEA OF ASQUITH.**  
Peace, said Mr. Asquith, should become the supreme interest of mankind, but subject to an all-important condition, namely, that it is a peace which does not defeat the purpose for which the great nations entered into the war. It is a peace which does not turn to waste the immeasurable loss and suffering which has been shared and are sharing in common.

**PRINCIPLE OF THE ALLIES.**  
The Allies are fighting for nothing but freedom and nothing but the improvement of the world. The Allies are fighting for nothing but freedom and nothing but the improvement of the world.

**HYATT ROLLER**  
See the "Hyatt Roller" When it arrives in Los Angeles  
This trip is showing motorists everywhere the wear and tear that Hyatt Roller Bearings can actually stand.  
The original bearings are located at points of greatest strain. Eight years old, but having delivered thirty years of normal service, they are still on the job, still giving perfect Hyatt Service—quiet, self lubricating, self cleaning, requiring no adjustment from the driver.  
The bearings in your Hyatt-equipped car are identical in quality with these. You can measure the satisfaction you may expect from your Hyatts by their demonstrated record.  
261,800 miles, the world's record for mileage—long drives over the roughest of country roads—winter drives through hub-deep snow, the abuse of livery and haulage service.  
And now, sturdy indifference to the most strenuous conditions that cross-country driving or daily use can present. Make sure your new car is equipped with Hyatt Quiet Bearings.

# News from South of Tehachepi's Top—Los Angeles County Items

**TRY TO RAISE  
LARGE AMOUNT.**  
Hundred Thousand Dollars  
Sought by University.

**Nazarenes Name a Committee  
to Obtain Fund.**  
Food Economy Course Ended  
with Home Dinner.

**PARADENA, July 27.**—A campaign was started yesterday to rehabilitate the Nazarene University, which was seriously handicapped by dimensions last year when various members of the faculty and a number of students withdrew, principally in connection with the separation of the university and the University Nazarene Church. The plans were outlined by Dr. Edward F. Walker, the newly-elected president of the university, and one of the general superintendents of the denomination.

The board of trustees, the president and a special committee, appointed by the church assembly, have begun a movement to raise \$100,000 by September, 1918. The amount is to be raised in cash and pledges, 20 per cent of which will be due in three years and the rest in four equal installments.

The alumni association of the university met at the camp grounds yesterday and decided to undertake to raise at least \$10,000 of the amount needed. The alumni already have the promise of \$1000, and are starting their campaign with enthusiasm.

**ECONOMY BANQUET.**  
"Meatless and wheateless," but not deficient in food values, was the description given to the menu served yesterday by a dozen Pasadena housewives at the home of Mrs. W. J. Richardson at No. 1191 North Los Robles avenue. The dinner came as a climax to a course in food economy, conducted last week for two months, and served to illustrate the possibilities of food conservation. The menu consisted of: Vegetable soup, French dressing, green beans, 2-3 cents, with the calories, or food units totaling 1000 for each person. Following was the menu: Vegetable soup, French dressing, green beans, 2-3 cents, with the calories, or food units totaling 1000 for each person.

**FIRE ENDANGERS  
OIL PROPERTY.**

**MCKITTRICK, July 26.**—A grass fire, fanned by a brisk breeze from the north, swept over about 60 acres of ground on the north McKittrick front, endangering property of the Standard Oil Company, in section 36, 28-21, and necessitating the calling out of men and horses of that corporation to fight the flames. No loss, with the exception of a small quantity of oil in a sump, is reported. The origin of the blaze is not known.

Extraordinary care is being exercised by the local oil companies in guarding against fires, especially where there is an abundance of dry grass, the extremely hot weather increasing the danger of spontaneous combustion. On most of the oil lands, all buildings were months ago protected by the removal of all material of a hazardous nature, and due attention was paid to increase in the matter of fire-fighting apparatus, some concerns being equipped with regular fire companies, which, in the event of a fire, would be able to render efficient service should it be required.

**JUSTICE ACCUSED.**  
Formal Complaint of Failure to Account for Fines Received is Filed Against Santa Barbara Official by the Grand Jury.

**SANTA BARBARA, July 26.**—Because he has failed to keep a fee book for an entire year, and sums of money are not accounted for, the grand jury in a report today charged Justice of the Peace J. P. Lane with "willful and corrupt misconduct in office." Acting on the report, Dist. Atty. E. W. Souder filed a formal complaint against the justice, who is cited to answer before the Superior Court August 6.

Mr. Lane has eighteen months of his term yet to serve. His career as a justice has been spectacular.

He slapped the face of a city official and was fined \$50 by Justice of the Peace Melvin Snow. Later he verbally attacked Justice Snow on the street and was arrested on a charge of disturbing the peace. On this charge he was found guilty by another justice and fined \$15.

**OIL COMPANY WANTS  
MEN EXEMPTED.**

**FULLERTON, July 26.**—Word received here today indicated the Union Oil Company would petition the government to exempt from the draft men in its employ because of their occupation. The company, it was stated, realizes the importance of producing oil, the oil position at this time, and takes the stand that in order to keep the forces up to the present high standard oil employees should be allowed to continue with their work, as they are for the most part trained and highly efficient men.

About a dozen men were drafted from the local field, and among the number are tool dressers, pumpers, drillers and a warehouse man.

**FATALLY BURNED.**  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

**WATER REACHED  
HIGHEST MARK.**

Colorado was Level with the  
Tops of Store Counters  
in Palo Verde.

**EL CENTRO, July 26.**—According to Samuel Jackson of Palo Verde here today, the recent rise in the Colorado River was the highest ever known. It came up to the Bishop residence over in Palo Verde to about five feet in depth. The house being of adobe was melted down and is a total wreck, the occupants having to go to the hills for refuge.

The motor boat which carries the mail from Palo Verde to Chibola, a distance of seven miles, could run right into the doors of both offices. The water at Palo Verde was up to the top of the counters in the store. At one place in the lower country the river was more than ten miles wide.

**WORK IS BEGUN  
ON CANTONMENT.**

CONTRACT FORMALLY SIGNED  
BY ARMY OFFICER.

One Thousand Men will be Employed Monday Clearing the Site at Linda Vista, Near San Diego, and by End of August Million Dollars will Have been Spent.

**SAN DIEGO, July 26.**—The contract for the construction work at Camp Kearny, on the Linda Vista cantonment site, has been signed by Lieut. Charles S. Rogers, Engineer Corps, U.S.A., representing the government, and William Hampton, Los Angeles contractor. By Monday morning nearly 1000 men will be employed in clearing and burning the brush covering 8000 acres of the site, and about 2000 men will be employed in building the camp. The first building to be erected will be a mess hall to accommodate 1000 men, to be used by the laborers who will build the camp. Between now and August 25, \$1,000,000 will be expended in purchasing material and in wages by Lieut. Rogers, who recently completed the clearing of the site of a similar camp for 40,000 soldiers and officers in Virginia.

**POLICE SCHOOL.**  
A police school will be opened next Thursday, August 2, by Acting Chief James Patrick, and classes will be held in the police court building, criminal law, first aid and clerical work. The City Attorney will furnish lectures on criminal law, Police Surgeon R. H. Crabtree will conduct the first-aid classes and Sgt. William Wetherbee will instruct in clerical work.

**HUNDRED AFFECTED.**  
Court Sustains Claims of Santa Paula y Satcoy Company to Oil Rights on Many Fine Ranches in Ventura County.

**SATCOY, July 26.**—In a decision of far-reaching importance, Judge J. W. Curtis of Riverside has sustained the claims of the Santa Paula y Satcoy Oil Company to the oil rights on the Santa Paula y Satcoy ranch, embracing hundreds of acres in the vicinity, and now cut up into more than 100 fine ranches.

Emma G. Baker and more than 100 other ranchers, some of them among the wealthiest in the county, were plaintiffs in the suit, which was heard in the Ventura county Superior Court.

In 1864 George C. Briggs executed a deed to Edward H. Blackett, around the interpretation of which and its effect, the action centered, the plaintiffs claiming that a certain large tract had been excepted from the grant of oil and mineral rights. It was also claimed that whatever oil and mineral rights had been originally granted, had lapsed because of the statute of limitations. The court denied both contentions.

**FEVERISH SEARCH  
FOR RANGE CATTLE.**

**PORTERVILLE, July 26.**—Because of the shortage of labor and the unusually large alfalfa crop throughout Tulare county, ranchers are engaged in a feverish search for suitable range cattle hoping to convert into beef the forage which they will be unable to convert into hay.

Practically all the ranchers of the Woodville and Poplar districts report that they will lose heavily if hay under present conditions. The first two cuttings of alfalfa this year brought from four and one-half to five tons to the acre, about the usual production from the first three cuttings. Six to seven cuttings will be the rule this season.

**REWARD OFFERED.**  
SOLDIERS' HOME, July 26.—A letter has been received from the president of the board of managers of the National Home for Disabled Volunteer Soldiers, at Dayton, O., containing the announcement that \$1000 reward will be paid for evidence leading to the arrest and conviction of the person or persons guilty of dynamiting the Governor's residence at the western branch, N.H.V.S., Leavenworth, Kan.

**CLOTHING STOLEN.**  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
SOUTH PASADENA, July 26.—When P. A. Lord, president of the Lord Motor Car Company of Los Angeles, returned to his Milana-ave home this morning after a two-week motor trip to Yosemite Valley, he discovered his clothing worth \$100 had been stolen during his absence.

**WATER REACHED

The City Attorney will furnish lectures on criminal law, Police Surgeon R. H. Crabtree will conduct the first-aid classes and Sgt. William Wetherbee will instruct in clerical work.

**HUNDRED AFFECTED.**  
Court Sustains Claims of Santa Paula y Satcoy Company to Oil Rights on Many Fine Ranches in Ventura County.

**SATCOY, July 26.**—In a decision of far-reaching importance, Judge J. W. Curtis of Riverside has sustained the claims of the Santa Paula y Satcoy Oil Company to the oil rights on the Santa Paula y Satcoy ranch, embracing hundreds of acres in the vicinity, and now cut up into more than 100 fine ranches.

Emma G. Baker and more than 100 other ranchers, some of them among the wealthiest in the county, were plaintiffs in the suit, which was heard in the Ventura county Superior Court.

In 1864 George C. Briggs executed a deed to Edward H. Blackett, around the interpretation of which and its effect, the action centered, the plaintiffs claiming that a certain large tract had been excepted from the grant of oil and mineral rights. It was also claimed that whatever oil and mineral rights had been originally granted, had lapsed because of the statute of limitations. The court denied both contentions.

**FEVERISH SEARCH  
FOR RANGE CATTLE.**

**PORTERVILLE, July 26.**—Because of the shortage of labor and the unusually large alfalfa crop throughout Tulare county, ranchers are engaged in a feverish search for suitable range cattle hoping to convert into beef the forage which they will be unable to convert into hay.

Practically all the ranchers of the Woodville and Poplar districts report that they will lose heavily if hay under present conditions. The first two cuttings of alfalfa this year brought from four and one-half to five tons to the acre, about the usual production from the first three cuttings. Six to seven cuttings will be the rule this season.

**REWARD OFFERED.**  
SOLDIERS' HOME, July 26.—A letter has been received from the president of the board of managers of the National Home for Disabled Volunteer Soldiers, at Dayton, O., containing the announcement that \$1000 reward will be paid for evidence leading to the arrest and conviction of the person or persons guilty of dynamiting the Governor's residence at the western branch, N.H.V.S., Leavenworth, Kan.

**CLOTHING STOLEN.**  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
SOUTH PASADENA, July 26.—When P. A. Lord, president of the Lord Motor Car Company of Los Angeles, returned to his Milana-ave home this morning after a two-week motor trip to Yosemite Valley, he discovered his clothing worth \$100 had been stolen during his absence.

**WATER REACHED  
HIGHEST MARK.**

Colorado was Level with the  
Tops of Store Counters  
in Palo Verde.

**EL CENTRO, July 26.**—According to Samuel Jackson of Palo Verde here today, the recent rise in the Colorado River was the highest ever known. It came up to the Bishop residence over in Palo Verde to about five feet in depth. The house being of adobe was melted down and is a total wreck, the occupants having to go to the hills for refuge.

**ONE MYSTERY  
CREATES TWO.**

Body of Man Murdered on the  
Desert is Identified.

Proves to be that of Chino  
Auto Truck Owner.

Rainstorm Causes Landslide  
in Mill Creek Canyon.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
SAN BERNARDINO, July 26.—The man murdered on the desert near Klondike, whose body was discovered several days ago by a county road employee, was today positively identified as Claude F. Chapman, 32 years old, proprietor of the Chino-Los Angeles express line.

Identification was made by W. C. Osborn of Anaheim, father-in-law of the dead man; Arthur S. Osborn, his brother-in-law, and L. Leslie Meeker, a friend.

The three drove to the desert and viewed the body as it was taken from its lonely grave. Osborn had a piece of Chapman's trousers which had been cut after they were purchased and they matched those worn by the dead man, whose face, however, had been eaten away by coyotes.

Officers are looking for Emil C. Scott, 29 years old, who is declared to have left Kingman, Ariz., on July 13 with Chapman in a machine belonging to Miss Olive West of Chino, Ariz. Miss West was at the garage when the body was taken out. She had charged Scott with stealing the car, but today she modified the charge and refused to give officers a photograph of Scott.

**WOMAN IS HELD.**  
Miss West is being held pending further investigation. The investigation is being held pending further investigation. The investigation is being held pending further investigation.

**Men Entrusted with the Safety  
From Flood of Imperial Valley  
Have to Settle What is the Best  
Method of Maintaining the  
Levees with Comparative Safety.**

**EL CENTRO, July 26.**—One of the big questions interesting the irrigation district here is the method of maintaining the levees with comparative safety. The Volcano Lake levee plan of defense involves a long-drawn-out plan of constant vigilance, dealing with the ever-present danger that from some cause or other necessary action may be some time delayed too long. This is evidenced by the unstable ground condition that obtains throughout the entire Volcano Lake region, as shown by numerous mud volcanoes.

Knowledge of the cause or causes of these volcanoes and all their possible effects is, according to authorities, not at all definite or complete, but one thing is certain, and that is that other conditions being equal, no engineer would choose the location of these volcanoes for the permanent security of any structure.

Several miles of the Volcano Lake levees are located over and among the mud volcanoes, that, though small and comparatively inactive as yet, may for all local engineers know, spring into destructive activity at any moment.

Two general plans of protection against rising water have been outlined by Thomas Hines, who has been associated with many important projects of the Imperial Valley. The first is to close Bee River at its head, put the Colorado River back into its old channel and positively keep the Imperial Valley from continuing raising Volcano Lake levees or build other levees in the vicinity to hold the flood waters out of Imperial Valley.

The second plan is to close Bee River at its head, put the Colorado River back into its old channel and positively keep the Imperial Valley from continuing raising Volcano Lake levees or build other levees in the vicinity to hold the flood waters out of Imperial Valley.

The first is to close Bee River at its head, put the Colorado River back into its old channel and positively keep the Imperial Valley from continuing raising Volcano Lake levees or build other levees in the vicinity to hold the flood waters out of Imperial Valley.

**OLD-TIME AIR  
AT MEETINGS.**

Many are Tenting on the Old  
Camp Ground at Hunt-  
ington Beach.

**HUNTINGTON BEACH, July 26.**—Interest is growing daily in the big camp meetings being held by the Methodist of Southern California on the camp grounds in this city. Many have remarked that the meetings carry them back twenty-five or thirty years, as the old-time spirit permeates the air and reminds them of the days that have drifted into the past.

The Tent City Company is caring for all the camp grounds and has applied for accommodations at reasonable rates, and the indications are that there will be room for all who desire to attend these meetings, which continue for two weeks. There is a cafeteria on the grounds.

## REALTY MEN TO TEST NEW LAW.

Organize to Start Fight to Break Bonding Rules.

Injunction Suit to be Filed Here in a Few Days.

Permanent Association Names Staff of Officers.

Injunction proceedings will be started in the Superior Court of Los Angeles county within the next few days in an effort to prevent the operation of the new law providing for the licensing and bonding of realty dealers. Definite provision for this move was made yesterday.

More than 100 men and women of Los Angeles who are engaged in the real estate business gathered yesterday afternoon in the hall at No. 111 West Second street to complete permanent organization of the Independent Realty Dealers' Association of California, and to take steps to prevent the action of a law which these men and women believe is unjust and unconstitutional. John L. Richardson was engaged as attorney for the association, an assessment of \$5 per member was levied, to be paid immediately, to provide a fund for legal expenses, and the board of directors was empowered to proceed with the fight against the new law, which many supposed would go into effect today but which officials at Sacramento have determined will not become effective until the 31st inst.

Mr. Richardson stated last evening that suit to restrain the operation of the new act will be started just as soon as he is able to prepare the necessary papers.

**OFFICERS CHOSEN.**  
The first business of the meeting yesterday was the completion of the permanent organization. It resulted in the following roster of officers, elected for a term of one year:

President: Hanlon Patterson; vice-president, Frank Purcell; secretary, L. W. Wilson; treasurer, Charles J. Kedge; board of directors, Ed L. Kerna, W. W. Goodwin, T. P. Drinkwater and C. J. Robinson.

A declaration of principles and by-laws were adopted, and then followed a serious discussion of the alleged inequities of the new law providing for the licensing and bonding of realty dealers, and the best and most practicable means for preventing its going into effect.

"Under this law the state will take from me my right to collect money that is due me; and if I go ahead it will brand me a felon," exclaimed one real estate speaker. "That's a beautiful law, and if you real estate dealers don't fight it, you are slackers."

That was the general sentiment of the gathering, and the speaker was warmly applauded. Attorney Richardson, in presenting the general phases of the new law said, in part: "The new law directly affects everyone engaged in the real estate business, and this association has decided to take whatever steps it can to test the validity of the law, and to see under what objectionable conditions."

"I have been unable to find any decisions on any law like this, because never before has such a law been foisted upon a suffering public. Under its provisions, many of the realty dealers of California could be branded as felons and made to suffer heavy penalties. We declare it is a law of oppression, and we will test its constitutionality. In my opinion it is unconstitutional, but no lawyer can guarantee such a decision."

**THE REAL OBJECTION.**  
"I do not believe it is the intention of this association to fight this law merely because it requires the payment of a license fee, but the law requires a bond, and it leaves in the hands of the real estate commission the absolute power to decide whether or not it will permit any individual or firm to continue in the real estate business. California must become a law-abiding state. We must take action, and take it at once, if we are to protect our rights."

Among the proposals made by the various speakers was one that there be the closest co-operation with the organizations of realty dealers at Oakland and San Francisco who have undertaken to oppose the new law, and the board of directors was instructed to make an aggressive fight to prevent the law going into effect. The association will hereafter hold regular monthly meetings.

License blanks for real estate men may be obtained at the office of Gov. Stephens in the new Leaning Building. Copies of the law may also be obtained there.

**DR. PATTON ACCEPTS.**

Telephones from San Diego that he will take pastorate of First Congregational Church in this city—was sought by Andrew School.

At a meeting of the members of the First Congregational Church Wednesday night a formal call to the pastorate of the church was extended to Dr. Carl S. Patton and this has been accepted.

Members of the church last night telephoned to Dr. Patton, who was in San Diego, asking his intentions. He answered that he intended to accept the pastorate they offered.

# Proof Positive!

Los Angeles, Cal.,  
July 18th, 1917.

Great Western Milling Co.,  
Los Angeles, Cal.

Gentlemen: On the 28th of last month I secured one of your Bread Mixers, and I find that it is all that you claim for it, and more.

In connection with the Besgrade Flour it certainly makes the finest of bread, and reduces the labor to the minimum. It not alone takes the "ache out of bake," but the "dread out of bread;" as I make my husky son turn the crank, bread-making in my home has been turned into a pleasure instead of a task.

I also wish to tell you how well I like the Besgrade Flour, it is well named.

With best wishes I am,

Mrs. W. J. Sturgeon,  
620 So. Breed St., Los Angeles, Cal.

## Let Wealth Slip.

(Continued from First Page.)

tary assemblages on the Pacific Coast will require vast and constant supplies. These supplies include food, clothing, equipment and materials for shelter. The list is so extensive that all lines of business should feel the impetus of these great orders if the proper effort is made to provide the supplies in stock. Los Angeles already has let many thousands of dollars slip through its fingers, because of its indifference to opportunity. It is time the plain truth should be told and the business concerns of this city should be awakened to their gross neglect of a golden harvest waiting at their doors.

**CALL FOR BIDS.**  
Yesterday the Merchants' and Manufacturers' Association received a circular asking for bids on government supplies, these bids to be opened August 4. Proposals in triplicate may be obtained at the office of the association, No. 224 Wilcox Building. The goods called for are:

Flour, rice, hominy, prunes, evaporated apples, evaporated peaches, coffee, lard, ten-pound cans of apples, breakfast bacon, chocolate candy, lemon drops, stick candy, almond cheese, full cream cheese, young American cheese, cigars (londres, especiales, panatelas, perfectos, exquisites), crackers, currants, farina, ginger ale, ham, macaroni, mushrooms, rolled oatmeal, plum pudding, sweet potatoes, sardines, cranberry sauce, pork sausage, shrimp, tapioca, chewing and smoking tobacco, tongue, rolled wheat, baking powder, beans, tea, sugar, evaporated milk, vinegar, cucumbers, salt, pepper, cinnamon, cloves, ginger, nutmeg, syrup, favoring extract, apple butter, small cans of apples, beef extract, bluing, borax, brooms, brushes (nail, shaving and shoe), lantern fuel, plain food, vanilla chocolate, clam juice, breakfast cocoa, gelatine, deviled ham, linen handkerchiefs, lettuce, lobster, matches, malted milk, molasses, shaving mug, ground and prepared mustard, olive oil, toilet paper, cayenne pepper, chili pepper, pickles, pipes, shoe polish, razor, soap, soup, starch, loaf sugar, powdered sugar, talcum powder, toilet water, tooth powder, towels, toweling, witch hazel, fish, canned salmon, one and three-pound cans of baked beans, three-pound cans of tomatoes, chileots, asparagus, stringless beans, cherries, sweet corn, two-pound cans of oysters, peaches, pears, green pears, pineapple, pumpkin, spinach and squash.

**THE REAL OBJECTION.**  
"I do not believe it is the intention of this association to fight this law merely because it requires the payment of a license fee, but the law requires a bond, and it leaves in the hands of the real estate commission the absolute power to decide whether or not it will permit any individual or firm to continue in the real estate business. (Continued from First Page.)

tary assemblages on the Pacific Coast will require vast and constant supplies. These supplies include food, clothing, equipment and materials for shelter. The list is so extensive that all lines of business should feel the impetus of these great orders if the proper effort is made to provide the supplies in stock. Los Angeles already has let many thousands of dollars slip through its fingers, because of its indifference to opportunity. It is time the plain truth should be told and the business concerns of this city should be awakened to their gross neglect of a golden harvest waiting at their doors.

**CALL FOR BIDS.**  
Yesterday the Merchants' and Manufacturers' Association received a circular asking for bids on government supplies, these bids to be opened August 4. Proposals in triplicate may be obtained at the office of the association, No. 224 Wilcox Building. The goods called for are:

Flour, rice, hominy, prunes, evaporated apples, evaporated peaches, coffee, lard, ten-pound cans of apples, breakfast bacon, chocolate candy, lemon drops, stick candy, almond cheese, full cream cheese, young American cheese, cigars (londres, especiales, panatelas, perfectos, exquisites), crackers, currants, farina, ginger ale, ham, macaroni, mushrooms, rolled oatmeal, plum pudding, sweet potatoes, sardines, cranberry sauce, pork sausage, shrimp, tapioca, chewing and smoking tobacco, tongue, rolled wheat, baking powder, beans, tea, sugar, evaporated milk, vinegar, cucumbers, salt, pepper, cinnamon, cloves, ginger, nutmeg, syrup, favoring extract, apple butter, small cans of apples, beef extract, bluing, borax, brooms, brushes (nail, shaving and shoe), lantern fuel, plain food, vanilla chocolate, clam juice, breakfast cocoa, gelatine, deviled ham, linen handkerchiefs, lettuce, lobster, matches, malted milk, molasses, shaving mug, ground and prepared mustard, olive oil, toilet paper, cayenne pepper, chili pepper, pickles, pipes, shoe polish, razor, soap, soup, starch, loaf sugar, powdered sugar, talcum powder, toilet water, tooth powder, towels, toweling, witch hazel, fish, canned salmon, one and three-pound cans of baked beans, three-pound cans of tomatoes, chileots, asparagus, stringless beans, cherries, sweet corn, two-pound cans of oysters, peaches, pears, green pears, pineapple, pumpkin, spinach and squash.

**THE REAL OBJECTION.**  
"I do not believe it is the intention of this association to fight this law merely because it requires the payment of a license fee, but the law requires a bond, and it leaves in the hands of the real estate commission the absolute power to decide whether or not it will permit any individual or firm to continue in the real estate business. California must become a law-abiding state. We must take action, and take it at once, if we are to protect our rights."

Among the proposals made by the various speakers was one that there be the closest co-operation with the organizations of realty dealers at Oakland and San Francisco who have undertaken to oppose the new law, and the board of directors was instructed to make an aggressive fight to prevent the law going into effect. The association will hereafter hold regular monthly meetings.

License blanks for real estate men may be obtained at the office of Gov. Stephens in the new Leaning Building. Copies of the law may also be obtained there.

**DR. PATTON ACCEPTS.**

Telephones from San Diego that he will take pastorate of First Congregational Church in this city—was sought by Andrew School.

At a meeting of the members of the First Congregational Church Wednesday night a formal call to the pastorate of the church was extended to Dr. Carl S. Patton and this has been accepted.

Members of the church last night telephoned to Dr. Patton, who was in San Diego, asking his intentions. He answered that he intended to accept the pastorate they offered.

Life's Gentler Side Society, Music, Song and the Dance—At the Play-houses.

SOCIETY.

**Society to Act.**  
The first made up of society buds, and the beaux of Pasadena, will be the Santa Anita Ranch for the benefit of animal relief work. The society will be represented by members of the society, who have taken a great interest in the rehearsals and the production of the amusing little play, which was composed by George K. Kinsman.

**Brilliant Evening.**  
The brilliant soiree of the society was given yesterday evening at the home of Mrs. George Kinsman, who is the hostess of the evening. The program was a most interesting one, and the society members were all in their element. The evening was a most successful one, and the society members were all in their element.

**DEED IS MORTGAGE.**  
Father of Deceased Man Wins Fight for Portion of Property that was Handed Over to Secure the Payment of a Debt of Half Its Value.

Zephir F. Collette is the father of Clifford Collette, who owned property valued at about \$10,000, which died intestate April 13, 1916. He was indebted to Hynclie Sarasin in the amount of \$5000. Just before his death he executed a deed of the property to Mr. Sarasin. His father brought suit against Mr. Sarasin, contending that Clifford had mortgaged the property to secure the payment of certain promissory notes, and asking the court to declare the deed a mortgage.

**Charters—Amusements—Entertainments**  
**AUDITORIUM**  
THE HAND THAT ROCKS THE CRADLE  
With Lots of Weir and Philip Sautley.  
A powerful drama. Bill Cullen, Shaul & Wanda, Joe Her, Burdette.

**THE BROADWAY—ALL THIS WEEK**  
**CHARLES RAY as "SUDDEN JIM"**  
Dramatic Drama of Big Woods. Full of Pep and Action  
Mr. Charles Ray will appear in the stage Wednesday evening.

**WASHINGTON BASEBALL PARK—PACIFIC COAST LEAGUE**  
**LOS ANGELES VS. PORTLAND**  
Every Day Except Monday. Game Called at 2:30 P. M.  
PORT THREE ROWS IN GRAND STAND RESERVED SUNDAYS.

**THE BROADWAY—ALL THIS WEEK**

GLIMPSES.

ON THE RADIANT RIALTO

**IN AND OUT OF OUR BRILLIANT MARTS OF FASHION.**

Now is the time to buy: Blankets for summer use at beach and mountainside. Sales are inviting and quantities are based upon weaves of last season, where are declared to be far better than those to come. Blue water for use in the country. This seems to belong to the artistic, temporary, abode, and prices are lowered just now in that Japanese sale.

The lacy table pieces which are to be had at amazingly low cost. These always find a use and are dainty and washable.

This strenuous California! How she lures us! How she wins us unaware! "Yes, we're back! And oh, so glad to be HERE!" exclaimed a lady the other evening at a reception, "California! California!" she added, in endearing tones.

When I had seen her she had been looking forward to a return to "dear old Washington," longing to get back East. She "did not like the West—could not endure the sameness of California." You know the story. We all have experienced it. The first ecstasy of the wonderland, then the feeling of strangeness the wish for home. The return to the old scenes and associations and the not-at-homesness there! Some how things have changed. Place look smaller. Persons seem to have a less extensive view. Life lacks the western punch. Without knowledge or consent our "gear" has been slipped to the "high" and we find it difficult to adjust our pace to the old speed limit. With our climate assails us. It is too warm, too cold. There is too much humidity. It rains. It snows. There are hurricanes and hailstorms when our friends and relatives ask us sollicitously about the reported earthquakes in California we remark with scorn that we just love temblors and would rather have a whole nest of them than a single wind. We begin to "oh" for California. Why did its perfection pass? We join the ranks of those who, like yet unlike the little girl of the story from whom the word "earthquake" was derived, when ever we open our mouths "California" pops out unawares. When our friends begin to nudge and to lead us to the nearest agency to ascertain the latest news of the "quake" in Los Angeles. And here we are! And glad to be here!

**Trouser-Leggings.**  
A novel kind of trousers and leggings combined are of khaki, and the breeches instead of trousers where breeches usually do, at the knee or below, continue down to the shoe, where they are strapped underneath the arch of the foot, exactly like canvas leggings. Thus with a single garment is one equipped for the hike, save, of course, for the midday or upper blouse.

**Jap Daintiness.**  
Trays of glass are not so novel, although always dainty, but those sent from Japan had, of course, a novel touch never absent from anything made by those interesting originals. Butterflies underneath the glass were snails—not snails, but snails, as we have sometimes seen them, but in fine, white, silken thread.

**Nippon Nuts.**  
A Nippon nut bowl was cleverly decorated with nuts in almost full relief—peanuts, walnuts and some of the native Japanese nuts, molded against a painted background which served well to bring out their artistic coloring.

**A Novel Sifter.**  
A one-handed sifter is the latest kitchen convenience. In the form of a tin cup, it contains a handle upon which moves as one oscillates the cup, assisting the flour to make its way through the wire. The sifter, thus, the sifter, with one hand the while she sifts with the other. The price of the useful little utensil is minute, notwithstanding its value in housework.

**Army Hats for Camping.**  
After puzzling as to the most convenient hat for camp wear, and after trying on several and deciding that they were too thin or that, Eloise found just what she wanted, at one of the army stores. A trifle wider of brim than the Boy Scout hat, this one of felt, has the two ties for underneath the chin, and the color goes well with her khaki-hiking suit. Several of the other girls had been on a hill hunt for camping hats and were delighted with the "find" made by Eloise, and especially as the cost of the hat was small. So the Eloise camp hat promises to be popular.

**Candy Striped.**  
There is something delectable about those candy-striped socks, in white and red. They look so clean and inviting. Either in silk, or in the chine or linen, they are among the late examples in tailoring neckwear.

**A New Helmet.**  
The new late summer hat is of white felt in helmet shape, with downward turning brim faced and bound in black velvet, and a varnished leather chin band. Extremely becoming to the youthful face is this military hat, seen in that sports goods house where smart attire for out-of-doors is the rule.

Every Little Smile Has a Meaning.

Two sunbeams of the screen. Mabel Julienne Scott's success in "The Barrier," now showing at Quinn's Rialto, has been unique and remarkable; Peggy Hyland, whose personality is sparkling through "Caste" at Tally's, is constantly gaining new admirers.

**For Dutch Breakfasts.**  
The Dutch breakfast room might receive a high light by means of those new vases, decorated in Dutch designs with truly Dutch coloring. Somewhat unusual are they and valuable especially for their high coloring which would shine out well from some dim corner.

**For Fashion's Promenade.**  
Brown satin with velveteen makes a good autumn combination. The hem will be a very important feature of the autumn skirts. Side pleatings are used on French crepe negligees instead of lace. Crowns fashioned after the "Boy Scout hats" are new in millinery. Fine embroidery of a refined and quiet character is much used.

**Improvement.**  
**PAVING DISCUSSED.**  
City Council Meets with Property Owners in the Harbor District and Goes Over Plans that have Been Hanging Fire Three Years.

The entire City Council, with the exception of President Conwell, accompanied by City Engineer Hansen, was in conference yesterday afternoon with harbor district property owners, in the rooms of the San Pedro Chamber of Commerce, over plans for street paving in the Harbor District. The project has been before the City Council for nearly three years. Members of the North End Improvement Association vigorously protested against further delay.

**HARBOR DREDGE MAY GO NORTH.**  
Machine is Probably to be Used in River and New One Placed Here.

The dredge now at work in Los Angeles Harbor will probably be removed to the Sacramento River for the use of the California Debris Commission, and the harbor work appropriation will be credited with the value of the machine. A new dredge will be secured to operate here at a greater depth.

**ELKS EXCITED AT PROSPECT OF GAME.**  
Sunday will be a large occasion in the Elks Baseball League. That afternoon at Vernon the Los Angeles and Santa Barbara clubs will clash in what may prove to be the deciding game for the Dr. Hagan cup. If the "99" boys win they will tie Santa Barbara for the leadership, but if they lose it will practically put them out of the running. Harry Stewart and Doc Burnett, the battery for "99," are training daily at Washington Park. Santa Barbara will run a special train to this city.

FRIVOLS.

REHEARSALS SOON.

**By Grace Kingsley.**  
There won't be any dull evenings in Los Angeles if Manager Oliver Morosco and Messrs. Klaw and Erlanger have anything to say about it. With both interests presenting "original casts in original productions," at dollar top prices, all the year round, there's no reason why anybody who loves good theatrical entertainment should stay at home and play with the cat.

One of the busiest men in the world these days is Mr. Joseph Montrose, manager of the new K. and E. theatrical circuit, whose duties and problems are of a scope which require his services fourteen hours a day. Mr. Montrose has established the K. and E. headquarters on the second floor of the Los Angeles Investment Building, and for two days he has been busy receiving and sending telegrams, attending to correspondence, and so on.

Plans concerning the first production were announced yesterday by Mr. Montrose. The first play will be Max Martin and Roy Atwell's new comedy, "Here Comes the Bride." Rehearsals will begin next week in this city, though the piece will be first presented in San Francisco, later coming to the Mason Opera-house in this city. Productions will all be built in Los Angeles and San Francisco. It has been decided to charge only a dollar top price for these Klaw and Erlanger productions.

**REJOINS HER HUSBAND.**  
**Widow of Civil War Chaplain Dies at Age of Eighty-six.**  
After an illness of almost six months Mrs. Nannie H. Pirtle, widow of the late Dr. J. M. Pirtle, died shortly after 6 o'clock yesterday morning at the family residence, No. 728 West Eighteenth street. Mrs. Pirtle was 86 years old and came with Dr. Pirtle to Los Angeles thirty-one years ago. She was born in Clarksville, Tenn. Dr. Pirtle, who died seven years ago, was a chaplain in the Confederate Army during the Civil War. He never held a post in California, but practiced medicine for many years. Mrs. Pirtle leaves two sons, John A. and Walter H. Pirtle, and three granddaughters, Mrs. Frank Hutton, Mrs. Ray Chase and Mrs. Laura Brown. The funeral services will be conducted this afternoon at 2 o'clock from the family residence.

**PROMISE SENSATION IN COURT HEARING.**  
**COUPLE ARRESTED BY PURITY SQUAD WILL FIGHT.**  
Proprietors of Auto Club Apartments, Accused of Violating the Rooming-house Ordinance, Say it was a Job Put up on Them Out of Revenge.

Mr. and Mrs. Julius Laventhal, arrested a few evenings ago at the Auto Club apartments, of which they are proprietors, on suspicion of having violated the rooming-house ordinance in the alleged allowing of disorderly practices there, yesterday promised a sensation when their case comes up for trial September 8. They assert that they will be able to show that the arrests were "framed" on them out of revenge on the part of a discharged servant, let out Mrs. Laventhal says, for offenses similar to that charged against their house. This woman, according to Mrs. Laventhal, had made repeated threats to leave the house, and she had continued to do so until her former employers.

**WILL CALL 'EM THE GRIZZLIES.**  
Appropriate Name for Crack New California Field Artillery.

Stewart Edward White, who is in charge of the recruiting of the new regiment of California field artillery, returned last night from Santa Barbara with the story of an Indian and a cow puncher who rode in from the desert yesterday under the impression that it was the last day in which they could enlist. They had been over eighteen hours in the saddle.

**THE GRIZZLIES.**  
The new regiment has been nicknamed "The Grizzlies" from the fact that the State authorities have conceded it the privilege of carrying the old State flag, which has the picture of a grizzly bear upon it. The Montana Kid, champion bronco buster, has enlisted at Santa Barbara. Among those enlisting here is Larry Cowling, the golf champion.

WOMAN A YEAR UNDER STIGMA.

Repeatedly Asks that She be Tried on Arson Charge Long Pending.

For about the tenth time the case of Henrietta A. Canfield was continued yesterday. She is accused of having attempted to burn her home, the Canfield, at No. 840 South Flower street, about one year ago.

Continuance after continuance was secured by her attorney, Le Compe Davis, through the fall, winter and spring terms of court. About two months ago Mrs. Canfield appeared before Judge Willis and demanded a trial. She has also repeated her request several times since.

Judge McCormick ruled that the case must proceed on August 13.

Coast, which will not be reached until November.

**Eleanor Painter as Herself.**  
"Pamela," with its noteworthy cast, including Eleanor Painter and Norman Trevor, is rapidly being perfected in rehearsal at the Majestic. "Charmed with what she has been able to see of Los Angeles," the way Miss Painter expressed herself. She is a beautiful and vivacious young woman, of the radiant sort, and full of dramatic enthusiasm, with a quick intelligence which seems to rest on her.

"I wouldn't go back into musical comedy," she said yesterday. "When I return to the American musical stage it will be in grand opera. In the meantime I'm extremely interested in playing a dramatic role, and I love the quiet character of Pamela."

When Miss Painter was a member of the Berlin Grand Opera Company, she was the only American, so that her advice was sought in putting on Puccini's "Girl of the Golden West."

**Twenty-five Dollars a Month**  
The salary offered the grand opera singers in the Berlin company to which Miss Painter belonged, after the war broke out, was \$25.00 a month. "And I must confess while I liked the Berlin audiences, I was mighty glad to get back home," said Miss Painter.

**Quick Action Needed.**  
Birmingham Age-Herald: "Do you think the time is coming when the government will commandeer all privately owned automobiles?" "I don't know," replied the mail-anchoy motorist, "but if the government wants to beat the Sheriff to mine it will have to hurry."

**WORLD'S GREATEST STOCK COMPANY—GOODY WEEK**  
**Lombard Ltd.**  
PRICES: Nights, 10c to 15c; Mat., 15c to 25c. Coming Sunday—THAT DAY.

**MAJESTIC—SEATS NOW SELLING**  
Begin Tomorrow Night, the Most Important Theatrical Event of Many Seasons.

**PAMELA**  
With Eleanor Painter. Special Morocco Summer Prices, 15c-25c.

Painter, "especially as I'm an American first, last and all the time."

Cinderella's Hero is Trevor. Maude Adams is to tour the West in her latest J. M. Barrie play, "A Kiss for Cinderella," and Norman Trevor, who is playing the lead opposite Miss Painter in "Pamela," is being brought to return to his original part in the Barrie play. However, Mr. Trevor likes very much working under the management of Oliver Morosco.

This is Mr. Trevor's (you pronounce the "e" short, and he's very particular about it) first trip West. He dislikes city life, and has taken apartments at the Beverly Hills Hotel, whence he can go whenever the fancy strikes him and he has time.

**St. Denis Dance Scores.**  
A Red Cross benefit entertainment in the form of an exhibition dance, was staged at the Redondo pavilion, last Tuesday night, with Miss Carol Dempster, last year's champion, Ruth St. Denis, William Wicks, the well-known dancer, and the Misses Violet Shannon and Marguerite Carleson, as the principal artists.

The military number was pretty spectacular and made a big hit. Those who took part were Misses Vivian Ames, Grace Mossman, Lolita Mahn, Ruth Tomlinson, Lois McComack, Alice Barnhart, Mabel Lucas, Dorothy Fuller, Billy Bowman and H. Mullen.

**Tame Town Says Bill.**  
We're a pretty tame town, after all, take it from no less an authority than that expert guardian of the Orpheum back-stage portal, Bill Brenner. Bill thought he had spotted something in the crap line last night, upon seeing a little group of performers gathered in a bunch in the green room and hearing the clatter of dice and the call of a croupier. "Phoebe!" Indeed, Bill thought he had stumbled on a game, in violation of the ordinances provided, and he immediately saw his duty and started to do it.

But as he broke into the group, he discovered Zeph Clark, Nora O'Connor and Ruby Myers, in their off-stage garb, gathered on a rug, and the men of the troupe looking on. "What are you doing?" he asked, in an exciting game of "jacks." It seems that this game is a fad with Miss Clark, and she was teaching it to the others, while the men gazed at them in envy.

Now Bill's goat's name is "Jacks!"

**Still a Perfect Boy.**  
Orville Stamm, "America's Perfect Boy," who plays the Orpheum next week, is a Los Angeles product and got his strong man training in the Y.M.C.A. gym here. Though he started his career several years ago, he still retains his title. He's still perfect and what's more wonderful yet, he's still a boy.

**Roberta Arnold Obliges.**  
When you see a trim and clever little maid in the first act of "Pamela," at the Majestic, tomorrow night, you'll see Roberta Arnold. Sue MacManamy, even if your programme does give that name. Instead you will be looking upon Roberta Arnold, who is the player of "Upstairs and Down," who yielded to the persuasions of Manager Morosco to make a change of scene, and who is now appearing in "Lombard, Ltd." and consequently will be available until Sunday night.

**Quick Action Needed.**  
Birmingham Age-Herald: "Do you think the time is coming when the government will commandeer all privately owned automobiles?" "I don't know," replied the mail-anchoy motorist, "but if the government wants to beat the Sheriff to mine it will have to hurry."

**WORLD'S GREATEST STOCK COMPANY—GOODY WEEK**

## TREND OF THE FINANCIAL NEWS.

CHIEF EVENTS OF YESTERDAY.  
(At Home.) All records for midsummer business on the New York Stock Exchange broken when the total day's dealings barely exceeded 300,000 shares. Steel and the more prominent war issues kept the market alive, and the reduction to 2 per cent. in St. Paul dividends occasioned brokers little surprise. There was a large gold outflow to Japan, South America and other foreign points, but it attracted little attention. Bonds were irregular. The banking syndicate floating the \$100,000,000 two-year, 5-per-cent Canadian notes will offer them at 98 and interest yield slightly less than 5 1/2 per cent. It was announced.

**HALF WAY RIGHT.**  
Labor-union leaders refer to the strike of 5000 miners in Clifton, Ariz., as being 180 per cent. complete. They are half way right, at least. The strike is complete—complete foolishness.

**IT CAN'T GO ON.**  
Twenty-four British vessels, averaging about 1600 tons each, in last week's toll of the German submarines. Think of it! Nearly 40,000 tons set to the bottom of the sea in one week! Can the most ardent pacifist sit back and say that such destruction should be allowed to continue? It must and will not stop until a stronger influence than the domestic peace palaver has been brought to bear upon the military tyrants who are responsible for the whole terrible business.

## THE SAMMIES IN FRANCE.

The United States has made progress in the five months which have elapsed since Germany forced us into the world war. Billions of dollars in loans to the Allies have been made; conscription has been adopted and carried out; the export embargo is in operation, cutting the enemy off short from vast supplies in food and munitions, and an expenditure of \$440,000,000 has been authorized for the construction and equipment of 20,000 airplanes.

## TWENTY THOUSAND AIRPLANES.

The President has signed the bill appropriating \$440,000,000 for the construction and equipment of 20,000 airplanes. While they are building, aviators will be trained, and it may fairly be expected that by November, or by January at farthest, 5000 aviators, each loaded with a ton of dynamite, will rain destruction upon the camps and cities of Germany. They will be equipped with airplane destroyers, of course, but the aviators will keep away from places where heavy, long-range cannon for the destruction of aircraft are stationed, and unless Germany can place in the air an army of destroyers equal in number to the invading force she cannot save her cities and camps from destruction. If Germany had been able to make and equip air fleets by the thousand instead of the dozen Paris and London would long ago have been made heaps of ruins.

## HE WHO WORKS.

And still people talk about born snobs, artists, inventors and mechanics. The theory is illogical and the truth of it has never been demonstrated. It is true that there are a few individuals who are born into the world with an unusual amount of talent and people call them talented. The difference between the words "talent" and "genius" is merely variation in the location of the letters. The meaning of the two words is almost identical. The possession of talent means the possession of some latent quality which requires development for perfect expression. A freak is not a genius because, although usually lacking in the consciousness of power, he feels no need for growth, and even the power that he possesses gradually diminishes instead of expanding. The man who works for years and finally reaches the goal of his dreams always smiles when he hears someone speak of a born genius.

## DEPORT THE HOHENZOLLERN.

The difference between the Germans and other people is that in Germany the government—that is, Mr. Hohenzollern—does the thinking for the people. The substitution of Michaelis for Hindenburg means absolutely nothing. The Reichstag is suffered to indulge in talk that means nothing. It may even cast peace votes so long as it votes war credits without a dissenting voice. The Michaelis peace, like the Hindenburg peace, is an olive branch stuck on the end of a bayonet.

## Says the New York Herald editorially:

So far as words go, Prussianism is as defiant as ever. It might have seized this opportunity to suggest peace terms of some sort that, by clever handling, would have given material to pro-Germans in this country who are so eager for something with which to promote their treasonable campaign against this nation's allies. But with the usual disregard for its tools, it chose to show only that its grip on the throat of the German people is tighter than ever and that it intends to hold that grip at any cost to the German people will not prevail forever. That is absolutely but one effective way of procuring peace. The Kaiser MUST GO.

## THE LATEST COMMISSION—MORE GRAB—MORE TAXES.

There is no limit to the rapacity of the bosses in Sacramento. At a time when the best blood of the nation is about to be offered on the altars of principle and patriotism, at a time when all men who have an iota of either virtue or are sincerely endeavoring to minimize this tragic immolation by conserving every resource necessary to the short, successful prosecution of the war the calloused pay-roll patriots of California are lying awake nights devising ways to extort more money from the taxpayers of the State. California's shameful predicament is without parallel in the country. At least we may thank God for that. Were every State in the Union in the clutches of such a political machine as that which has fastened itself on the vitals of industry, labor and production in California, America at this crisis would indeed be in a sorry way.

Another \$50,000-a-year commission has just been added to the thirty such dynastic bodies already saddled on the State. Another administrative bureau has been set up to abstract dollars from the long-suffering citizenry of this unfortunate commonwealth. It is the State Real Estate Commission this time. The name, like all the rest, is a euphemism.

As usual, the bosses have been able to turn the trick without much trouble. The realty men of California wanted a law that would make things more unhealthy for the crooks that infest their business in this State. They had wanted it for years. No one in Sacramento seemed to pay much attention to their pleas until some genius of the machine hit upon the happy idea of giving the brokers their law and at the same time getting a new commission out of it. Then the law found ardent supporters. It was the same old moss-grown formula that has been used in the building up of all the entrenched outworks that surround and bulwark the great inner citadel of political graft.

There is nothing to indicate that the realty men who took the lead in getting the Realty License Bill through the Legislature were inspired by other than commendable motives. This has been questioned by some of the realty men of the State, it is true, but the charge that the act was put through for the purpose of creating a monopoly in the handling of real estate has not been substantiated by tangible evidence. On the face of it the law is impartial in its application, and in so far as the clauses actually dealing with the regulation of the real estate business are concerned, shows the earnest purpose of the authors to protect the honest members of their own profession and the public at large from the depredations of the all-too-numerous crooks operating in lands and lots. Into the bill, however, was inserted the regulation Sacramento brand of Joker.

To the credit of some of the realty men who framed the bill and had it introduced it may be said that they made an honest, though vain, effort to keep the law from being merely the stepping stone to another administration grab. Appreciating the necessity of conserving the State's resources to the utmost in the present time of national emergency and being desirous that the passage of the license law should not add a cent more to the cost of government in California than was absolutely necessary, these proponents of the bill had placed in it a clause which would have made the creation of a brand new commission unnecessary. This clause provided specifically that the Governor might, at his discretion, turn the administration of the realty license law over to the Commissioner of Corporations, this official to receive for the extra service imposed upon him an additional thousand dollars by way of salary. There was no doubt in the minds of those making the suggestion that the official in question could easily take care of the added duty, for they had studied the matter carefully and knew just how much work was involved in it.

There had also been placed in the bill, however, a provision that the Governor might (likewise at his discretion) create a special commission enjoying the privilege of raiding the State treasury to the tune of \$50,000 annually and having a \$5000-a-year autocrat at its head. One of the leading real estate men of Los Angeles declared mournfully last week that if there had been the slightest question in his mind as to the two methods the administration would choose at such a time as this he would never have permitted his name to be used in connection with the measure. The elevation of a brand new commission, when an inexpensive plan would have served just as well and when provision had actually been made for such a plan, he asserted hotly, was nothing less than a crime against the people of California.

The Times, which has year in and year out voiced the despair of thinking people at the way things were being manipulated in Sacramento, never attempted to put the thing more strongly. The case, like so many others before it, would be too flagrant to require comment, even were the conditions confronting California and the nation at this moment not so ominous. Under the circumstances one can only helplessly wonder how much longer the citizens of a sovereign State are going to endure this kind of government.

## A BLOW TO SEATTLE.

A union laborer has a right to say that he will not accept employment from a capitalist who employs non-union workmen or from a corporation whose president is a Holy Roller or whose secretary is a member of the A.P.A., and an employer has a right to refuse to hire any man who is a member of a union or any man who has red hair or any man who has a cold in his head and goes sneezing about his work. If an employer discharges, without sufficient cause, a workman with whom he has a time contract the workman has a remedy at law against the employer, and the remedy will be effective if—as is usually the case—the employer is solvent.

If a workman who is a party to a time contract leaves his employment without sufficient cause—and an order of a labor-union to strike is not sufficient cause—the employer has a remedy at law against the employee, which remedy will probably be non-effective, for usually the employee has no property that could be levied upon.

The standard of living of the employee is dependent upon the rate of wages because the standard of living is governed by the purchasing power of wages. A

## Separate Peace.

workman whose cost of living is increased 50 per cent. by the increased cost of food and clothing has a right to ask that his employer—who is engaged in the manufacture of a commodity the price of which to the consumer is correspondingly increased—shall increase the wages paid. And if the employer refuses the increase the workman has a moral right to leave his employment and seek work elsewhere. But he has no legal or moral right to assault or insult the workman who takes his place, or to picket or boycott or menace or dynamite the property of the employer.

And of all the unjust and unreasonable antics of union labor the sympathetic strike is the most illogical and absurd. Sixteen hundred employees of the Seattle Traction Company strike because the company decides to employ non-union men. Fifteen thousand metal workers quit work partly because of "sympathy" with the striking car workers and partly because their employers buy light and power of the traction company; and timbermen and shingle-makers and carpenters and masons and plasterers and painters and plumbers quit work out of "sympathy" with the other strikers.

And, in order to enforce the demand of union labor that the Seattle Traction Company shall not give work to non-union men, the workers of Seattle are losing \$100,000 each day and their families will soon be menaced with hunger; the industries of Seattle—especially the great shipbuilding industry—are threatened with extinction and the prosperity of the great Puget Sound city has received a severe blow.

## THE RAILROAD BLOW QUESTION.

The members of the Interstate Commerce Commission who turned down the plea of the railroads for a 15-per-cent. increase in rates did not act wisely or fairly. Commissioner McCord said that the nation being at war and the cost of fuel and other commodities being abnormal, with conditions affecting the volume and movement of traffic without precedent, the future of these conditions could not be predicted with even a fair degree of certainty. He thought that the situation's not being sufficiently normal or stable in character made it impossible to make an intelligent inquiry into the reasonableness of rates. In this, says the Bache Review of July 21, "he completely ignored the broad situation, which has prevailed for some years, in the railroad business. He should study the convincing sentences of Commissioner Harlan's opinion. Here is what Commissioner Harlan says on the subject:

"Every aspect of the situation was carefully examined and illustrated. The result is a record that is entirely sufficient to enable us not only to decide whether or not the proposed rates should be suspended, but also to determine whether the present rates in any of the three great rate districts of the country might properly be increased, and if so, to what extent."

The whole country needs much larger locomotives. These needs are not merely for the emergency of carrying on the war, but in order to make the railroads capable of doing the enormous business of the country. This is far from being prepared to do, and Commissioner Harlan says that at once a definite plan should be laid for the development and building up of our transportation system. To do this the railroads need at least a billion dollars a year to keep pace with the growing demands and another billion or two to enable them to catch up with the present needs.

"Where," asks Bache Review, "is this money coming from? This subject Commissioner Meyer and McCord do not even touch upon, and the other commissioners, aside from Commissioner Harlan, propose

to wait and see. This narrow view utterly ignores the fact that the railroads can get this money only from investors—that investors will not furnish it because the straining policies of regulation have put the railroad business in bankrupt shape and no investor will consider risking his money in such a business."

Commissioner Harlan says that, as we look to private interests to furnish the transportation service of the country, we must see to it that the rewards are sufficient to attract capital for its further development. Everybody knows that this is not now the case—at least, everyone who has given the matter any study—and that the managers of the great insurance companies and savings institutions of the United States are deeply worried because their holdings in railroad securities are diminishing in value, thus jeopardizing their tangible assets.

Commissioner Harlan sums up the whole situation when he says that the record, and by that he evidently means the record not only of the hearings just concluded, but the record of the railroads since 1910 to which he refers, makes it clear to him that "the 15 per cent. proposed by the eastern carriers, which in its actual result would probably not exceed 10 per cent., should be permitted to become effective," and that, while the conditions here are an equal and respect her. The quotation below states the opinion of a hard-headed factory foreman on the importance of labor in the world of labor.

"That is why I was glad he was present in the officers' room of the independent had been on in the stress and struggle of eight years of conflict with an enemy whose authority had been banished from their land a people vested with the responsibility that comes with liberty—why should complete accord be expected and substantial unanimity be demanded from an assembly such as this Irish Constitution Convention? Ought we to expect from its membership greater wisdom and forbearance and moderation than were shown by those who drafted, adopted and ratified our Constitution?"

Bill said, on February first, when he turned loose his submarines. "Now, by the sacred Iliad, I'll show the world what warfare means. I'll show the world that German might is master of the land and sea; I'll end this most annoying fight and bring proud Britain to her knees." And Germans took the Kaiser's word; they said, "He'll surely cut the grass; he is a peacock with a bird, and what he says will come to pass." They tightened up their belts a notch, convinced they'd cook the Allied goose, and grimly set themselves to watch England, begging for a truce. The weary months have rolled away, in every sea her vessels float, and England's mightier today than when the Kaiser sought to gash her with weeks or so will do the trick; the Kaiser told his hopeful dupes; "I'll make their ocean commerce sick, and Hindenburg will can their troops. I wonder what the Germans say as they toll on their tightened belts, while Haig and Nivelle knock the hay and other stuffs from their pelts? I wonder if they do not hike to battlefield with deadly rage; I wonder if they wouldn't like to put the Kaiser in a cage."

WALT MASON.  
Roy, please add the name of A. Bonar Law to the list of Englishmen who are giving three cheers for Uncle Sam.

## THE WORM TURNS, TRUTH COMES OUT.

(Dallas Pitchfork.) The West Texas editor got tired of being called a "liar" because of an occasional typographical error or slight disarrangement of the facts in publishing a commonplace news item. In his wrath he announced in bold-face type as follows:

"A lot of people fall out with the editor and brand him as a liar when the ordinary human mistake of life shows up in a newspaper. You have a little charity and fellow-feeling for every man in town like your editor. You claim you want the facts, and—d—d if I don't give 'em to you. Read the next issue of this sheet and you'll see some facts with the bark off. I'll admit that I am a liar, an editorial liar, ever since I have been editing this sheet, but I never printed a lie in these columns except to save somebody's feelings from being hurt. I'm not afraid of any of you and I'll be damned if I don't print the plain truth from now on, or until you get out of the habit of calling me a liar every time I make some little avoidable typographical error. Watch my smokes!"

Here are some paragraphs culled from the next issue:

John Bennis, the latest merchant in town, made a trip to Belleville yesterday.

John Coyle, our grocerman, who voted with the Republicans in 1896 and consumed more mail-order whiskey than any other member of the Baptist Church in this county, is doing poor business. His store is dirty and dusty. It is a wonder he has any business at all.

Rev. Styr preached last Sunday night at the Christian Church. His sermon was punk and uninteresting, except some stuff he quoted from Bob Ingersoll, for which he failed to give Bob credit. He also recited a few passages from one of William Elbert Munsey's sermons and had the gall to palm it off as his own.

Dave Charter died at his home two miles north of this place last Thursday night. Dock Holderness, who is an old friend of the family, attended him a few minutes before he expired. He gave out that Dave died of heart failure. That is a lie. Dave died from drinking too much of a very poor grade of malted barley. This paper prints the truth.

Tom Spradlin married Miss Cordie Meador last night at the county seat. It ain't generally known, but the marriage was brought about mainly by a Remington shotgun manipulated by the bride's father. Tom concluded that marryin' was the healthiest thing he could do under other arrangements could be made.

Married: Miss Susie Scruggs and Horace Griffin, last Saturday, at the Methodist parsonage. Rev. James C. Williams officiating. The bride is a very ordinary town girl who flirts with all the traveling men she meets and never helped her mother three days all together in her whole life. She is anything but a beauty, resembling a gravel pit in the face, and walks like a duck. The groom is a natural-born loafer and bum. He never does a lick of work until his stepdaddy runs out of money at the home of his wife's father and says that he has no definite plans for the future. Susie will have a hard row to hoe.

## MAN'S SUPERIOR—IS WOMAN.

Once man pretended to place woman on a pedestal and worship her. Now, according to Donald Wilhelm, who reports "The Confessions of a Munition-maker" in the August issue of the National Geographic, he is forced to recognize her as an equal, and respect her. The quotation below states the opinion of a hard-headed factory foreman on the importance of labor in the world of labor.

"That is why I was glad he was present in the officers' room of the independent had been on in the stress and struggle of eight years of conflict with an enemy whose authority had been banished from their land a people vested with the responsibility that comes with liberty—why should complete accord be expected and substantial unanimity be demanded from an assembly such as this Irish Constitution Convention? Ought we to expect from its membership greater wisdom and forbearance and moderation than were shown by those who drafted, adopted and ratified our Constitution?"

## WILHELM'S PLEDGE.

Bill said, on February first, when he turned loose his submarines. "Now, by the sacred Iliad, I'll show the world what warfare means. I'll show the world that German might is master of the land and sea; I'll end this most annoying fight and bring proud Britain to her knees." And Germans took the Kaiser's word; they said, "He'll surely cut the grass; he is a peacock with a bird, and what he says will come to pass." They tightened up their belts a notch, convinced they'd cook the Allied goose, and grimly set themselves to watch England, begging for a truce. The weary months have rolled away, in every sea her vessels float, and England's mightier today than when the Kaiser sought to gash her with weeks or so will do the trick; the Kaiser told his hopeful dupes; "I'll make their ocean commerce sick, and Hindenburg will can their troops. I wonder what the Germans say as they toll on their tightened belts, while Haig and Nivelle knock the hay and other stuffs from their pelts? I wonder if they do not hike to battlefield with deadly rage; I wonder if they wouldn't like to put the Kaiser in a cage."

LUKE M'LUKE SAYS:  
You can't get a regular man to believe that the lad who says "I love his enemies" isn't either a liar or a coward.

Some women are so saving that the only thing they imagine isn't the worth keeping is a secret. Never judge a man by his son-in-law. His daughter and his wife usually wish that relative on him without his consent.

Once in a while you will meet a woman who would be good looking if it wasn't for her face. We don't know much. But we do know that if the children are well, their shoes are not going to wear.

mule never brags about its executive ability. And yet it is as big a kicker as some men who do. We all hate to admit it. But most of us have wives who are trying to make us feel good on a tax-cut "pet income." [Minneapolis Tribune.]

## National Editorial Service. IRELAND'S CONSTITUTIONAL CONVENTION.

(CONTRIBUTED TO THE TIMES.)  
BY MICHAEL J. RYAN,  
President of the United Irish League of America.

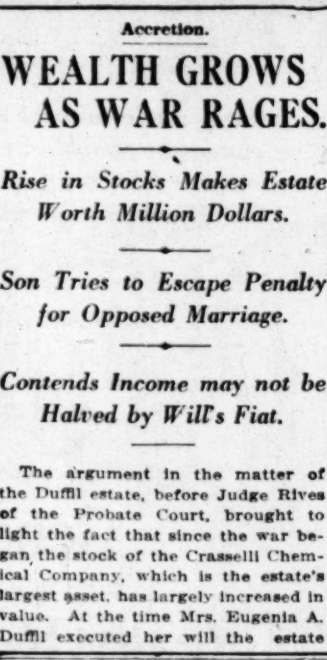

IN VIEW of the recent elections a discussion of the proposed convention to adopt a constitution for Ireland must be purely academic. Whether held or abandoned, impossible results should not be exacted from it, nor should unfair standards be used for measurement. To the Constitution of the United States—the greatest instrument that ever came from the mind of man—only thirty-nine of the fifty-five members of the convention affixed their signatures. One of the colonists—Rhode Island—absolutely refused to be even represented in the convention. Not only was Alexander Hamilton the only member from New York who signed the completed document, but great players like George Mason and Edmund Randolph of Virginia and Elbridge Gerry of Massachusetts refused to append their signatures. Ratification of it by the colonies—Rhode Island refused to be even represented in the convention. Not only was Alexander Hamilton the only member from New York who signed the completed document, but great players like George Mason and Edmund Randolph of Virginia and Elbridge Gerry of Massachusetts refused to append their signatures. Ratification of it by the colonies—Rhode Island refused to be even represented in the convention. **PEN POINTS**  
BY THE STAFF.  
Hill, we'll get you yet!  
Wait and see Russia come back!  
San Jose manages things better than Seattle.  
It is possible for most married women to intern their husbands with a lock.  
No more draft until 1918. When over the country demands it the nation will respond.  
It used to be that the most exciting thing in the life of a boy was getting ready to "run a trotline."  
The minimum height for soldiers in Italy has been reduced four inches. They have been a bit short already over there.  
The term "bloated bondholder" used to be one of derision, but it is no longer. In these days of the Liberty Loan who isn't?  
The beautiful picture of a woman at the Arcade is again shown on the screen. It is a bit improved from the last time we saw it.  
Most folks think the expression, "Cleanliness is next to godliness" is from the Bible. But it isn't. The line may be found in John Wesley's "Several Conversations."  
The Long Beach Horseshoe Pickers' Amalgamated Union is about to issue a series of resolutions, but whether to "view with alarm" "point with pride" is as yet undecided.  
The pains of parturition increase in Russia and nobody yet knows what will come forth. Have a kind regard for the storm-tossed country. She is doing the best she can in a great crisis.  
We knew it would come. The Canadian government has applied to Uncle Sam for a short-time loan of \$100,000,000. Put your securities under the door. Miss Dominion, and we'll look 'em over.  
The prophets are again engaged in the task of fixing the limit of the war. The guesses run all the way from the present late summer to four years. You can pay your money and take your choice.  
The name of the new German Chancellor is pronounced Mecklenburg, with the accent on the second "a." It is spelled Michaelis. Remember this: It may come in handy when Gen. Pershing reaches Berlin.  
Speaker Champ Clark has been officially graduated from Transylvania University, Lexington, Ky. Fifty years ago Champ attended the school, but was expelled for shooting a man. The diploma is just a bit delayed.  
"Black Jack" Pershing is putting down business in France and is determined to accomplish what he is sent to do. He will person to this country either a national hero or wrapped in the national flag.  
President Wilson has written a splendid letter to J. H. McHugh of Omaha, who has contributed \$100,000 to the American army, for the heights reached by Abraham Lincoln in his letter to Mrs. Lincoln, who had lost three sons in the Civil war, have yet to be reached.  
When a woman asks at the drug store counter "if the goods will reach" it is for the purpose of trying to create the impression that she is looking out for the welfare of the prospective gown, when as a matter of fact it may be entirely due to a custom inherited from mother many years ago.  
In selecting a Republican for election on the National Shipping Board, President Wilson managed to select Bainbridge Colby, one of the most reliable in 1916. That is about as near as he can come to naming one of the opposite party required by law. First of all, Wilson is a Democrat.  
There is money in the business of promoting anarchy. When a New York judge fixed the bond of a woman at \$25,000 he probably thought she could not furnish such a large security, but she did, by lining up the number of revolutionaries who have profited by and with which she has looked after her own pecuniary welfare.  
**AMERICA.**  
Patient she is—long-suffering.  
Land:  
Wise with the strength of a woman's soul in calm  
Weighs and considers, and understands  
Ere it gives way to anger, and planned  
Of her own doing more than  
Against her peace by  
deemed more strong.  
Mother of many children she has  
kind arms.  
Safeguarding most the weak  
The mother's patience who  
learned to know,  
Which passes trifles by with  
an scorn.  
The mother's hopefulness  
ger slow.  
Yet, oh, beware! nor, crushed  
some  
Upon a sentence's cushion  
for torch still burns, to  
consume.  
Against the time when  
must prove her might,  
And energy is stored in  
room—  
Undreamed-of strength is  
for the Right!

**Hunt's Up.**  
**ARREST MURDER SUSPECT HERE.**  
Villa Colonel Wanted on El Centro Charge.  
Surrounded in Hills He Gives Self up to Officers.  
Liberty and Horse Stealing Also Laid Against Him.  
Helded Aguilar transferred from Mexican education and customs to the American side of the line, according to Sheriff Applestall of Imperial county, who assisted in the capture of the Mexican near Lancaster, yesterday afternoon, on an El Centro charge of murder.  
Aguilar, who is alleged to have killed also under the names of Hernandez and Jose, has twice been caught by Imperial officers and has twice escaped. Yesterday he was surrounded with four of the horses alleged to have stolen from Imperial Valley ranchers and driven to Los Angeles.  
Sheriff Applestall, with Deputy Sheriff Sepulveda, called to the man doubly covered, and reached to his pockets, pulled his dagger before pulling the two large-caliber pistols found on his hips. Taken to County Jail, he denied his guilt until confronted with pictures in the Santa Ana jail a year ago, prior to his sud- den departure from that place.  
**THE CRIME.**  
Charges against Aguilar, who is alleged to have been a colonel in the army, set forth that about a year ago, a wealthy rancher, El Centro, a wealthy rancher, was shot and killed. Aguilar was brought home on the day. Aguilar knew nothing of the matter until he was found in the hands of the police. Finding no money on the bandit, it is alleged he was given up to the police. A Chinaman, in his store, was shot and killed. Then a horse, it is further alleged, disappeared for a time, and was given up to the police. Aguilar was arrested three weeks ago. Aguilar was suspected. But before he got to his hiding place, he was surrounded with twelve horses and ranches near Calexico, Calif. He was traced to the city of Los Angeles. City Marshal Green, who then gave his name, broke into the store and managed to get the horse and disappear in the night. Several party healed were found on his person and it is believed that the cause of the fly- ing.  
Applestall will take the man extra guard to El Centro, where he will be placed on trial. He is to be followed by trial for robbery, horse stealing and things if he is not con- sidered.  
**Blocked.**  
The editorial devoted to Judge Wilbur was published July 7 last. It stated in part:  
"Superior Judge Wilbur, in discharging the solemn duty Saturday, declared his intense antagonism to the Record and its editor, and announced that he would demand contempt proceedings be taken against the editor, by referring it to the District Attorney's office."  
**LETTER NAMES JUDGE.**  
Some space was devoted to the "patriotism of Judge Wilbur," with the statement that "if the editor of the Record is well advised, he prefers his private brand of patriotism to that of Judge Wilbur," and headed "On Stones and Dogs," refers to Judge Wilbur's remarks to the Snively jury. In the writer's opinion the Record's editor "hit home when you wrote that editorial of which he complained. It is my opinion that you would do nine-tenths of the people of this great State a very great favor if you would nail Wilbur."  
The editorial published during the trial of the Snively libel suit was drawn to the attention of Judge Wilbur by Attorney John H. Perry, the Record's counsel. He regretted the publication, he said. It was written and published without his knowledge or consent, and he stated that there would be no further such publications, inasmuch as he had charge of the Record's case.  
Judge Wilbur read the various diatribes to the jury after it was seen a verdict was impossible, and referred them to the District Attorney, stating he himself had no doubt the editor was in contempt.  
The punishment on conviction is five days in jail or \$500 fine.  
**DETECTIVE ON THE STAND.**  
He and His Wife Give Evidence in Broker-Slayer Hearing.  
Detective Charles French and his wife were the only witnesses called in Justice Hinshaw's court yesterday in the preliminary hearing of William H. Cole, local broker, charged with the murder of Detective O. C. Firman.  
Both repeated their statements made at the Coroner's inquest, held soon after the shooting.  
The case was continued until

**WEALTH GROWS AS WAR RAGES.**  
Rise in Stocks Makes Estate Worth Million Dollars.  
Son Tries to Escape Penalty for Opposed Marriage.  
Contents Income may not be Halved by Will's Fiat.  
The argument in the matter of the Duff estate, before Judge Rives of the Probate Court, brought to light the fact that since the war began, the stock of the Crassell Chemical Company, which is the estate's largest asset, has largely increased in value. At the time Mrs. Eugenia A. Duff executed her will the estate had a value of about \$750,000. It is now worth more than \$1,000,000.  
Harry Duff, the only son, who under the will was to receive a yearly income of \$4000 if he did not marry his present wife, and \$2000 a year if he did marry her, contended these provisions of the will should not be taken into consideration in a distribution of the estate under the will. He was represented by Gibson, Dunn and Crutcher and Hunsaker and Britt.  
Attorneys for the estate, that is represented by Kemp, Mitchell and Silverberg, argued that the provisions of the will should be carried out. Judge Rives took the question under advisement.  
The matter was discussed at this time because the time has arrived for closing the estate and making a final distribution.  
**CASH UNCOUNTED.**  
County Officers Differ in Interpreting the Charter.  
When City Auditor Myers went to the office of the city treasurer yesterday morning and demanded that he be permitted to count the cash in the vaults he was refused. As a result he made a written demand for the permission and again was refused.  
City Treasurer Powell said he will never refuse to permit the auditor to count the cash at the end of any day, but the charter does not compel him to throw open the vaults to the auditor or any other person during working hours and he will not do so.  
The auditor and treasurer disagree as to the interpretation of the charter upon the question.  
**Campaign.**  
**WOULD OUST SALOONS.**  
Morals Commission's Secretary at Head of Movement for Police Action to Take Licenses Away from All Harbor Drinking Places.  
The Police Commission will probably be asked at once to abolish saloons in the harbor district. A campaign to that end was begun yesterday by Dr. Robert C. Barton, executive secretary of the Morals Efficiency Commission, who expects to enlist in his aid many prominent persons in the city.  
He takes the position that the saloons should be driven from the harbor section because of the temptation they offer soldiers and sailors stationed there and at Fort MacArthur. He declared while the government has decreed that no saloon shall be within a half-mile of an army camp, the reasons that brought about this decree apply to all saloons so easy of access for enlisted men as are those along the city's water front.  
Dr. Barton is secretary of the committee named by the Governor to work for elimination of vice from the vicinity of camps in the Los Angeles district.  
**AQUEDUCT SUIT.**  
Presiding Judge Finlayson yesterday set for trial the suit of Walter Spellman against the Public Service Commission for September 4. In this action Mr. Spellman alleges that the city should be compensated for water used in the San Fernando Valley. He contends that water from the aqueduct has been turned over to water users free, and that therefore the city suffers a pecuniary loss.  
**SALE POSTPONED.**  
The Board of Supervisors, which announced a sale of dynamite from the steps of the Courthouse next Tuesday, has decided that the county may have use for the surplus 400 cases and yesterday postponed the sale.  
**The Los Angeles Times carries the story of your goods, and presents your appeal to a vast army of readers who are able to buy advertised articles, and who, on account of believing in this paper, are predisposed in favor of its advertisers.**

Col. Soledad Aguilar, Who was arrested yesterday on murder charge.

To Try Editor.  
(Continued from First Page.)

men in this town that will read one-tenth the evidence this paper has collected in any of these cases will, in ten minutes, return a unanimous verdict. But evidence, facts, justice, have mighty little to do in lawsuits of this sort. Certain judges are on the bench; these judges will determine whether or not the evidence will be presented; they may bar out most vital truth; they may so instruct a jury that, despite all evidence, it can hardly fail to bring in a verdict for, say, Whitman. Now that is the power of a judge; are certain judges likely to use this power to defeat justice? Well, certain judges were put on the bench by request of invisible government, and certain judges in the past that have been put on the bench through political influence have had the strange faculty of securing jury verdicts, or at least such verdicts have been regularly returned in these courts; verdicts where the power of invisible government was at stake.  
"If the Record has to skin a few judges in order that it may be safe in telling the truth for the public good then we will nail a few judicial hides to the fence; it has been done in our experience."  
**ANOTHER ONE.**  
"Our Idea About Courts and Justice" was published June 13 last. This referred to the "drooling balliff, the snappy clerk, the mud-headed professional jurors, solid ivory from their shoulders up; the gesticulating, grating lawyers; the gaping, yawning witnesses; the sweaty waiter pitcher; the high, dull walls; the dusty carpets; the heavy, hot furniture; the smell of it; the sound of it; the look of it; dead, dead, dead—that's the average hall of justice. And above all will squat some political accident. Probably some slack wit who failed miserably in private practice; some scant flegling who wraps his pseudo dignity about him as a garment, and who dribbles and drools and drips petty savings, piffing, hair-splitting inanities."  
The editorial devoted to Judge Wilbur was published July 7 last. It stated in part:  
"Superior Judge Wilbur, in discharging the solemn duty Saturday, declared his intense antagonism to the Record and its editor, and announced that he would demand contempt proceedings be taken against the editor, by referring it to the District Attorney's office."

## OPEN DOOR TO ALL RAILWAYS.

City Urged to Block Attempt at Depot Monopoly.

Paramount Issue Develops at Terminal Hearing.

State Board Gives the Roads Time for Preparation.

An open door to all transcontinental railroads that may in the future seek to enter Los Angeles was demanded repeatedly by speakers at yesterday's hearing of the various grade-crossing complaints now before the State Railway Commission as a condition of any rerouting and terminal plan that may be decided upon.

This phase of the situation loomed up almost as importantly, in fact, as had the consideration of the actual elimination of the grade crossings themselves the day before.

Two nationally-important railroad lines, one already within the confines of California and the other with its present terminus in Arizona, are now awaiting some rearrangement of the local terminal facilities which will make it feasible for them to come to this city, according to T. E. Gibbon, one of those speaking before the commission.

Los Angeles, the speaker declared, needed all the railroads it could get if it was to realize its fullest industrial and commercial possibilities. The city could get new railroads, Mr. Gibbon stated, by first blocking all attempts of the roads already entrenched here to monopolize the existing means of entrance into the city and by then resolutely setting out to establish union terminal facilities somewhere in the Plaza district, where accommodations for a number of lines could be provided.

### FAVORED PLAZA.

Similar statements were made to the commissioners by F. W. Blanchard, president of the Central Development Association, which is the leading complainant against the railroads. Mr. Blanchard introduced a large drawing showing a union passenger station at the proposed Plaza location and the different railroads swinging in from the river bed. The speaker also dwelt at length upon a plan worked out by Samuel Storror, engineer for the association, and others for bringing the Electric Interurban cars from Aliso street into the same depot.

City Attorney Stephens indirectly placed the city on record by asking the commission to consider the reports favoring the Plaza union depot location made by Bion J. Arnold in 1911 and by the special engineering committee appointed by the City Council last year.

F. P. Howell, chief engineer of the Board of Public Utilities, and who, with Samuel Storror and former City Engineer Hamlin, made the grade-crossing investigation of the city in 1914, analyzed the conditions found at that time, dwelling particularly upon the inefficiency in the handling of freight and passenger traffic. The present terminals, Mr. Howell declared, were less than 50 per cent efficient.

Useless duplication of tracks, Mr. Storror declared in arguing for a union terminal system of freight yards and spurs for the common use of all railroads, added enormously to the grade-crossing menace and resulted in constant economic waste. R. Hargood, a local civil engineer, also discussed the same phase of the traffic situation.

Seward Simons, attorney for the Central Development Association, declared the Plaza plan involved no drastic changes in station or yards, but rather a "readjustment of tracks with community service" in view.

"The word 'union,' as it applies to terminal freight consideration," he said, "never has been understood as meaning merely a single terminal station." Mr. Simons explained that the different units of the freight terminal system would be stretched along the river and be united by

## The Public Service

At the City Hall.

WORK DELAYED ON IVANHOE BRIDGE.

MONEY MUST BE RAISED BEFORE CITY WILL ACT.

Discrepancy of Some Six Thousand Dollars may Hold up Construction Indefinitely—Interested Property Owners Must Settle the Question, Says Mr. Mallard.

Construction of the Brand boulevard bridge, commonly known as the Ivanhoe bridge, was held up indefinitely yesterday by the Council when an order was made that the city take no further steps toward the improvement until the property owners interested in the building of the span raise approximately \$6,000, the difference between the amounts authorized by the city and county and the total cost of the bridge.

The Budget Committee of the old Council appropriated \$7500 as the city's share in building the bridge. The Board of Supervisors appropriated \$5000. It is now estimated that the total cost will be \$13,500. Chairman Mallard of the Finance Committee said the city had agreed only to pay \$7500, and he would oppose further progress in construction until the total amount is raised.

Oppose Road and Oil.

While the Council yesterday officially accepted the improvement to Alessandro street between Scott and Reservoir streets, Mr. Mallard said he would oppose any other similar job.

"I think the City Engineer should be instructed to prepare a different set of specifications for road improvement," he said. "This work will not be satisfactory. The material is a poor mixture of sand and oil and the winter will play havoc with it." As a result of the objection, the City Engineer was instructed to draft more rigid specifications.

## WOULD STEAL HOUSE ITSELF.

Home Owner Says He Detected Man Actually Moving Building Away.

E. L. Smith tried to go mad, but he did it better. That is the claim of Fred Rubio, who yesterday secured a warrant for Smith's arrest on the charge of willfully and feloniously appropriating a house.

According to the complaint, the tenant of Rubio's house, T. Sanchez, was away for several days. The owner came to inspect the place and found Smith actually moving the house away.

Rubio dashed into town in his car, enlisted the aid of deputy sheriffs and stopped the alleged marauder in his very unusual pursuit of wealth. Smith will be arraigned this morning.

tracks so elevated or depressed at the few places that need be encountered that there would be no intersections at grade.

FROM THE JOBBERS.

F. P. Gregson, traffic manager for the Associated Jobbers of Los Angeles, contended that Alameda street should remain a route for heavy freight traffic. He asserted that freight being handled entirely satisfactorily in Los Angeles under present conditions. He described passenger traffic as the "kid glove" variety of railway business and avowed that to get it away from Alameda street and into a union depot at the Plaza would be as good a way to dispose of it as any.

The commissioners granted the Los Angeles City and County Viaduct Association, the cities of South Pasadena, Santa Monica, Venice and Pasadena, the North, Northeast, Northwest Improvement Association permission to make extended statements later. The city of Santa Monica was represented by Mayor Berkeley, Venice by C. H. Lyon, South Pasadena by City Attorney W. S. Haslett and Pasadena by Assistant City Attorney John Munger.

Others who spoke were Will D. Gould, C. E. McClure and R. W. Kelly. Mr. Gould and Mr. McClure both elaborated upon the possibilities of making a service to the city by the connection of the Sunset boulevard with Aliso street and Mission avenue after the two latter thoroughfares had been made safe by the elimination of grade crossings.

The commissioners again attempted to question E. W. Campbell, the Santa Fe's attorney, as to the attitude of his road in the matter. Attorney Frank Karr, in behalf of the Southern Pacific and Salt Lake lines, introduced a profile map of their routes into the city under the Arcade plan, this being kept by the commissioners for reference.

The commission will not meet again until the railroads have had time to prepare maps and drawings. The next hearing probably will be held within a week or ten days. All five commissioners left for the north last night.

SYMPATHY STRIKE OF CANNERY MEN.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 26.—More than 500 employees of the local cannery plant of the California Fruit Cannery Association were reported to have gone on strike today in sympathy with the walkouts in canneries in the Santa Clara Valley. Management of the plant maintained that the strikers were responsible for the trouble.

Leaders threatened to throw a bomb into the plant unless other employees walked out, said G. Cecorri, superintendent of the cannery. Squads of police were guarding the property today.

Four hundred women were forced to quit when the men left their work.

The strikers demanded an eight instead of a ten-hour day, without a reduction in wage, and a 25 per cent increase for overtime.

At the Courthouse.

DEATH PRIORITY IS CRUX IN CASE.

WHICH DIED LAST IS QUESTION COURT MUST DECIDE.

Three Killed When Automobile Goes Through Bridge and Surviving Wife and Son and Relatives in Pennsylvania are Engaged in Fight Over Estate.

A contest to determine the sequence of death in the Holmes tragedy, near Wilmington in 1915, went to trial before Judge Myers yesterday. The automobile in which Frank and Sarah Holmes and their son Leon of Long Beach were riding, broke through the railing of a bridge and was precipitated down an embankment. All three lost their lives. The sole survivor was Mrs. Betty Holmes, the second wife of Leon Holmes.

The Holmes' estate is worth about \$25,000 and is ready for distribution. In order to make the distribution it is necessary to determine which of the three who were killed succumbed last. The contest was brought by heirs residing in Pennsylvania, who are represented by Stratfield & Stratfield, Attorneys Skinner and Jake are counsel for Mrs. Holmes.

INCORPORATIONS. The Western Aniline Products Company, incorporated, H. E. Frederick, John Gaender, J. J. Cobb, M. K. Quinn and H. J. Vatcher, capital stock \$20,000; subscribed \$2500.

## AMBULANCIERS CLOSE ROLLS.

Seventy-three are Recruited in Half a Week.

Varied Tradesmen Wanted for Engineers' Corps.

First Crack Battery Filled; Second Growing.

Under the spur of the draft, recruiting in the various stations in the city is proceeding rapidly. The Second California Ambulance Company of the National Guard has closed its rolls after having recruited, in a little less than three days, from fifty-three to a full war strength of 124. Many more offered themselves than could be taken. The company has been ordered to report for duty on August 5 at 7 a. m.

Capt. Leeds of the United States District Engineer's office has been directed by Col. Edward Burr of the Fourth Engineers to enlist 124 specialists for that regiment, including forty-nine mechanics, eight horsehoes, sixty-seven carpenters and fifteen miners. Enlistment will be for the duration of the war and the regiment probably will see immediate action. Capt. A. H. Archer, formerly of Los Angeles, has been made captain adjutant of the Fourth Regiment. The engineers have recruited no men in Los Angeles since June.

CRACK BATTERIES FILL.

The two batteries that Stewart Edward White, the novelist, is recruiting, are being rapidly made up. The first has been completed and fifty men obtained on the second. To the first company Santa Barbara contributed fifty men.

A company of twenty-five men left for Vancouver yesterday afternoon, having been recruited by Sergeant Dupont of the Royal Engineers, 224 San Fernando Building, for the Canadian forces. The specialists who go to the engineers' corps, are being sent to an Atlantic port, and thence direct to England.

The regular army recruiting, considering the broad field it covers, is running slower than any other. Only thirty-seven men were obtained Wednesday, and the target smaller number yesterday.

The navy is recruiting practically up to its ears. The United Oil Building is permitted to take only thirty men a week. At present there are more applicants than can be handled. However, Pay Officer C. Burris is recruiting a unit known as naval base hospital No. 3, to be made up of Southern California men, which will be given three months' training here in Los Angeles and then will be ordered into active service, at once, in all probability.

HOSPITAL MEN NEEDED.

Fifteen more hospital apprentices are needed for this organization. The staff is made up of a number of prominent Los Angeles physicians, and Dr. Ross Smith is its head. George W. Cohn, a Los Angeles youth, has been given his commission as a first lieutenant in the Quartermasters' Corps, motor transportation service, at the Officers' Training Camp at the Presidio.

Mr. Cohn is a graduate of the Los Angeles High School. He took first place in the Carnot debate between California and Stanford University, winning the Carnot medal, the highest debating honor in the West, and was elected senior class president at the first-named school.

Dr. William M. Tarleton, No. 2715 Gassell avenue, a first lieutenant in the Medical Reserve Corps, is a Los Angeles resident. He has been a practicing physician here for four years. He received his medical education at Harvard University, Washington, D. C.

Officials Ask When IS A JAP NOT A JAP?

Kentchi Kodama is his name, and he lives at No. 641 San Fernando street, but it wasn't only the name that stumped the local Fish and Game Commission yesterday.

Kodama, destined to be a hunter. He applied for a license yesterday, depositing one American dollar upon the counter in the Union League Building.

"One license, please, to hunt," said Kodama, in his best English.

"Are you an American citizen?" the commissioner asked in his most polished Japanese.

"I am Hon. American," answered the son of Nippon.

"Well, it's lucky you are," said the commissioner, "otherwise instead of one buck you'd have to pay twenty-five."

"Yes, I am Hon. American," Kodama repeated. "I was raised and born in Hawaii."

The commissioner whistled.

"That's different! Hawaii's not a real slice of this country. I'll have to write to Sacramento about you. Mr. Kodama—you may be a subject of the Mikado and you may be a son of Uncle Sam."

The American-Japanese-Hawaiian protested that he had been granted a license last year in Oakland, but the Los Angeles commissioners decided to refer the matter to Councilman Robert D. Duke in San Francisco. In hope that a precedent will be established on a case that will probably never arise again.

Kodama, according to the Attorney-General's office, is a citizen if born since the annexation, but the commissioners want official word from headquarters.

## ANY OLD BOOKS TO GIVE AWAY?

Women's Section of the Navy League Needs Them for Harbor Library.

Have you any old books? The women's section of the Navy League, which has a recruiting station in the Wilcox building, is most desirous of securing them. The members have just recently opened a complete library for the sailors at the harbor training station.

A man has been detailed as librarian, and the books, all of which have been donated, are even being card catalogued, for the library will be made a permanent affair for the naval base.

Books of all kinds are coming in, two sets of Scott, two sets of Dickens, two encyclopedias, the latest copyright fiction and many magazines.

Los.

SIR ALFRED MOSELEY DIES IN LONDON.

HAD LARGE INVESTMENTS IN IMPERIAL VALLEY.

Noted British Educator and Friend to the Development of Southern California Passes Away as Result of Extra Duties Entailed by the European War.

EL CENTRO, July 26.—Sir Alfred Moseley, C.M.G., F.R.C.I., multi-millionaire, died suddenly yesterday, according to a cablegram received here last night from London by J. Elliott Druff, his son-in-law. He was 62. Overwork in connection with war measures was the cause of death, in the opinion of Mr. Druff, who arrived here yesterday from Sir Alfred, stating that he was giving much time to official government conferences.

Sir Alfred Moseley had extensive interests in Imperial Valley, notably the ostrich farm with 2500 birds and much land and securities. The foundation of his fortune, which is reputed to exceed \$100,000,000, was made in the Kimberly diamond mines, in which he was associated with the late Cecil Rhodes.

Sir Alfred Moseley was well known in San Diego and Coronado. For many years he passed each winter there and made many friends.

Several years ago he became interested in Imperial Valley land and invested much British capital which he controlled there.

For many years he passed his winters in Southern France, but finally came to try the climate of Southern California. After the first season here he became a Southern California enthusiast and proclaimed the merits of the Imperial Valley consistently.

The year the war broke out Sir Alfred had planned to bring the members of his family and a number of friends to Coronado to pass the winter. The war interfered with his plans, but he came for a short time himself.

When last in San Diego he presented the city a valuable painting. He did extensive advertising for the exposition, writing many articles about the San Diego fair. Several years ago he became widely known when he brought a large number of English teachers to America to study American methods of teaching and study. A year or so later he took a large number of American teachers to England and France to study the systems in vogue there. He was one of the best-known educators in England.

Hurt His Professional Pride.

[Kansas City Journal.] "I can't graft trees no longer for \$3 a day," asserted the reformed crook who had applied for something to do on the farm.

"Three dollars a day is fair pay for working."

"But a poor return for grafting. Try me at something else."
